

## SEWER LATERAL ORDINANCE REQUIREMENTS

- Complete **Application for Sewer Lateral Certificate**.
- Arrange for a **video inspection of the sewer lateral** with an approved plumbing contractor. Submit DVD (or VHS) of the sewer lateral inspection for review. For non-approved plumbing contractor, notify the City within 7 days of video appointment. Please note that a city employee must be present at actual inspection or the video will not be accepted.
- **Payment Fee: \$125.**

City will start the review of the video upon receipt of a completed application and the \$125 payment fee.

Upon completion of the video inspection review, the applicant will receive a Compliance Certificate or a Deficiency Notice. If a Deficiency Notice is issued, the property owner is required to bring the sewer lateral into compliance.
