Clean Cars for All Grant Program

Are you interested in trading in your old car for a new electric vehicle? The Bay Area Air Quality Management District is inviting income qualified Bay Area residents to apply for the Clean Cars for All grant program which provides incentives to retire older vehicles and replace them with a clean air vehicle or Clipper Card for public transit.

Residents may choose one of the following clean air transportation options to replace their scrapped vehicle:

- **Battery Electric Vehicles** operate solely on their electric motor. Electric vehicle batteries recharge by plugging into an outlet or charging station.
- **Plug-In Hybrid Electric Vehicles** combine an electric motor with a gasoline engine. Plug-In Hybrid batteries are recharged by the gasoline-powered motor during braking and by plugging into an outlet or charging station.
- **Hybrid Electric Vehicles** combine an electric motor with a gasoline engine. These vehicles cannot be "plugged-in" to be "recharged." The gasoline-powered motor also acts as a generator to recharge batteries on hybrids.
- **Clipper Cards** can be used for public transportation on all major Bay Area transit systems.

The average Clean Cars for All incentive is \$7,500 but up to \$9,500 is available for eligible applicants. Applicants must live in the Bay Area and their household income must fall under a specified limit based on their household size. Furthermore, the vehicle to be scrapped must be at least 15 years old and registered in California.
